Weekly Bankruptcy Analysis
November 7-13, 2022

The 6,864 total case filings recorded last week were a slight increase from filings during the same week in 2021. This continues the pattern of small increases over last year, but filings remain well below where they were in 2020 (early in the pandemic) and are down by nearly half from 2019 (pre-pandemic).

Chapter 11 Cases

The 176 chapter 11 cases filed last week were more than double the number of filings during the same week last year. However, 100 of these cases were filings related to the filing by crypto exchange FTX Trading, LTD., which filed in Delaware on Nov. 11. Excluding related filings, chapter 11 filings last week were above 2021 levels, about the same as in 2020, but well below filings in 2019.
